Design Studio Checklist

To make your visit as smooth as possible, here is some food for thought. Print out and bring in this sheet with any other design notes when you visit.

- Are you working on a new home, new addition or a remodel?

- What room(s) can we help you with?

- Do you have blueprints or floorplans?

Please prepare to share your planning documents with our design team.

- If this is a remodel, please provide pictures so we can understand your vision better.

Before your appointment, please load your pictures on a mobile device to bring in or send an email to your designer with the images attached.

- Do you have ideas from our website, other sites or magazines?

Before your appointment, please print out and prepare your notes to share with our design team. If you have an online Pinterest board or Houzz profile, please share links to these with your designer.
